CREW ON CHINESE CRUISER REVOLTS; SHELL ARSENAL

Land Attack Made Simultaneously But is Quelled After Hot Fight

(Associated Press by Federal Wire) PEKING, China, Dec. 6.—A revolutionary outbreak took place at Shanghai last night, the crew of the cruiser Chao-Ho mutinying and opening fire on the vessels of the Chinese navy anchored nearby, as well as shelling the arsenal. Simultaneously a land movement was launched against the arsenal.

After the river battle had proceeded for some hours, the cruiser was recaptured, while the land attack was repulsed.

An official statement made by the government early this morning announces that the revolt has been crushed in the bud and that peace has been restored.

Battle Rages for an Hour

SHANGHAI, China, Dec. 6.—Mutiny broke out aboard the Chinese protected cruiser Chao-Ho last night and for an hour a battle was maintained between the cruiser, anchored in the Wusong river, and two other Chinese warships, the cruiser Hai-Chi and the gunboat Tung Ching.

The guns of the Chao-Ho were also directed against the arsenal in the Manchou city, some of the shells falling far short and exploding in the French concession.

At the same time as the mutiny aboard the Chao-Ho broke out, revolutionists ashore attempted to storm the arsenal.

The duel between the 6-inch guns of the Chao-Ho and the 8-inch guns of the Hai-Chi created a panic among the crowded river, while the fighting ashore drew the whole city into a turmoil, wild rumors of a general revolution being current.

Other Ships Crews Remain Loyal. Apparently the outbreak in the navy is confined to the Chao-Ho, the crews of the other warships here manning their guns willingly and showing no hesitation in the attack upon the rebel ship.

The plan, according to what can be learned, is to shell the Chao-Ho this morning and sink her if the mutineers refuse to surrender, the firing between the ships being resumed at 2 o'clock.

Representatives of the Associated Press attempted to reach the arsenal by launch during the lull in the fighting but were intercepted by the gunboat Tung Ching, the officers of which ordered the launch to return to the foreign settlements.

The order was being carried out, the launch having circled and started back, when the gunboat opened fire on the press boat, damaging it but hitting none of the occupants.

Mr. Thompson has announced that he is forming a Woodcraft League, in the ranks of which he invites all Boy Scouts to enroll.

WHAT DYSEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve-building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products, I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of bisurated magnesia in a little hot or cold water. This will neutralize any acid which may be present or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated magnesia is doubtless the best food corrective and food antacid known. It has no direct action on the stomach; but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach linings, it does more than could possibly be done by any drug or medicine. As a physician, I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of dosing an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little bisurated magnesia from your druggist, eat what you want at your next meal and take some of the bisurated magnesia as directed above, and see if I'm not right." CLOSING SCENES AT 'FRISCO FAIR ARE SPECTACULAR

Daring Aviator Writes "Farewell" in Sky as Lights Go Out

(Associated Press by Federal Wire) SAN FRANCISCO, Cal., Dec. 5.—The San Francisco Panama-Pacific Exposition closed its gates at midnight and the greatest fair in history, in conception, in the completeness with which it was carried out and in general success financially, is over.

The grounds were jammed yesterday until 11 o'clock last night, the checkers at the gates reporting that during the day a total of 402,212 persons had entered the grounds, a record surpassing that of any other one day since the fair opened.

A feature of the day was the international toast to peace, the toast written by the President being drunk at noon with exposition officials gathered at luncheon. President Moore, who proposed the toast as an exposition ceremony, presided.

At midnight buglers ascended the Tower of Jewels and there blew "taps." As the last note died away the lights in the tower were extinguished and the exposition grounds darkened. Following this Aviator Smith ascended into the air in his illuminated aeroplane and wrote "Farewell" in a series of loops in the sky.

BLOODY FIGHTING BEFORE GORIZIA

ROME, Italy, Dec. 5.—Official despatches from the Isonzo front tell of the bitterly contested advance of the Italians, the Austrians making desperate efforts to shake the hold the Romans have on Gorizia. Yesterday, despite a hail of shells, the Austrian infantry charged and reached the Italian trenches on Monte Nero, capturing them and holding them temporarily.

The Italians counter attacked, after hand-to-hand fighting, regaining the trenches, taking several hundred prisoners. The bodies of 500 dead Austrians in the trenches evidenced the stand they had made.

BERLIN, Germany, Dec. 5.—The bitter disappointment of King Peter of Serbia against Russia for failing to come to the aid of the Serbs in their stand against the threefold invasion is expressed in the message sent by the Serbian monarch to Czar Nicholas when he was fleeing, according to an Overseas despatch received here.

"Serbia has always been devoted to Russia," says the message, "and Serbia has now sacrificed all her forces and shed her best blood in the war. Now, when an old man, I am compelled to leave my country, the destruction of which has been caused by the Russian Emperor's evil counselors."

TAKE UP EARLY CLOSING IDEA ON THURSDAY

Whether all stores in the city will keep open only until 6 o'clock in the evening the week before Christmas instead of the usual system of keeping open until 9 or 10 o'clock at night during that period, will be decided at a meeting of the board of retail traders to be held at 2 o'clock Thursday afternoon in the Chamber of Commerce rooms.

E. A. Berndt says the question has been talked over considerably for and con in the last week and that the meeting Thursday will probably settle it.

If the 6 o'clock closing hour for the week before Christmas is adopted, it will mean much less hardship and night work for clerks and other store employees, it is believed.

U. S. COTTON SHIP BLOCKADED BY BRITISH CRUISER

Admiralty Claims Cargo From Texas Port is Destined for Germany

(Associated Press by Federal Wire) GALVESTON, Tex., Dec. 6.—A British cruiser is in the offing, lying off this port apparently awaiting the sailing of the steamer Ausabti, now under American registry and formerly the Dutch steamer Laura, which is here loaded with cotton baled to Denmark.

The Ausabti owners, the American Transatlantic Company, of which Richard Wagner is the president, have applied to the secretary of state for an assurance of safe passage for their ship and the sailing of the steamer is awaiting the receipt of this.

The British admiralty claims that the American registry of the Ausabti is fraudulent and that the vessel has been purchased by Germans, with German money, and that her cargo is destined for consumption in Germany.

The Ausabti is in the identical position of the Hocking of the same company, and the German, which the British have already seized.

The Vanderbilt hotel in New York has hired a girl as taxi starter. The new plan is called the Virginia Mooney system, after the young woman employed.
